

Anti-Shock Aluminum Brackets for 2.5" & 3.5" HDDs

Model No.: **VPAB-352500**

Product Overview:

ViPower VPAB-352500 is a combo product for anti-shock aluminum brackets. It includes one set of VPAB-2500 (for 2.5" HDDs) and one set of VPAB-3500 (for 3.5" HDDs). VPAB-352500 offers a variety of usage in HDDs installations. First, both one 2.5" and one 3.5" HDD can be installed with VPAB-352500 and fixed on the 5.25" bay of PC case, meanwhile, VPAB-352500 is available for only one 2.5" HDD fixed on the 5.25" bay as well. Then, 2.5" HDD can be installed with VPAB-2500 and fixed on the 3.5" bay, while 3.5" can go with VPAB-3500 fixed on 5.25" bay. The most standout is each screwed point of VPAB-3500 is attached with depth 15mm anti-shock rubbers of TPE material providing the best protection to your HDDs. VPAB-352500 is not only a tool but also the best partner for your HDD and PC installation.

Each screwed point of VPAB-3500 is attached with anti-shock rubbers

Each screwed point of VPAB-2500 is attached with anti-shock rubbers
